I feel much elated to see the College Newsletter coming out successfully. All the activities in different domains clearly indicate that the college is progressing in the right direction.

We have plans and dreams in the years to come to move forward in creating academic excellence.

Education is not the act of acquiring knowledge from the books alone but transforming into a responsible citizen of India.

I can boldly say that we have excelled in every initiative that we undertook and we have stood together in facing the challenges in realizing the quality education.

Dr. Mrs. A. Punitha
Principal
