

UHV - e STUDENT INDUCTION PROGRAMME 2020

REPORT ON B.E I Year Electronic Student induction Programme 2020

The objective of engineering education is to guide and train the students with in their branch of admission and to have a holistic personality and the passion to serve the society and nation.

It is expected that an engineering graduate, work for solving the problems of society using the modern technologies and practices. Along with the good academic knowledge it is needed to cultivate the human values in Engineering graduates to fulfill their responsibilities as an Engineer, a citizen and a human being.

The Induction programme for the first year was conducted from 4.11.20 to 6.11.2020 , 17.11.2020 to 24.11.2020. with various activities which enable the students to overcome fear, adapt to college, and motivate them to perform well in their chosen branch of admission.
